

A Simple Solution to the Congestion Crisis

The Hytech Rewards platform reduces the cost of commuting and parking for everyone by using incentives to motivate employees and the community to share rides.

Rewards Matter

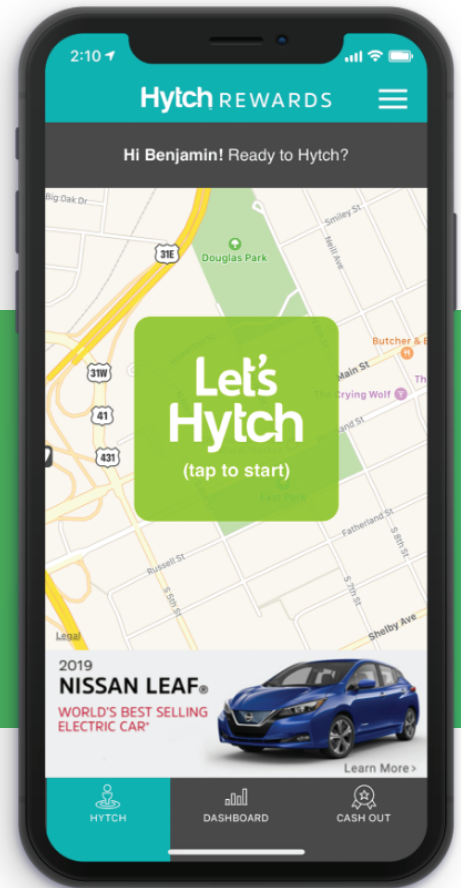

Incentives change behavior. Hytech partners with companies to reward changed behavior by paying people to share rides during their commute. More shared rides means less congestion and reduced parking costs and hassles for you and your employees.

Benefits to Using the Hytech Platform

- Reduce costly parking burden felt by both employer and employee
- Ease the congestion crisis by promoting shared rides
- Improve employee recruitment and retention by lessening commute fatigue
- Promote employee well-being and happiness
- Every Hytech is carbon neutral

The Hytech Mobility Rules Engine Works for You

The Hytech Mobility Rules Engine allows companies to design a dynamic incentive program that works with any objective to motivate people to make smarter mobility decisions.

Design Your Custom Rules and Rewards Strategy

We help you develop your rules and rewards. One rule or many, below are a few examples.

Distance and Time

- + 4¢ for commutes less than 20 miles
- + 3¢ for users before 7:30 AM
- + 5¢ for peak congestion hours M - F

Mode-Type

- + 5¢ for employer shuttle use
- + 3¢ for public transit
- + 5¢ for 2+ people in a car

Destination

- + 1¢ for travel in-state, county, city
- + 3¢ ending in geo-location
- + 5¢ parking in remote parking lot

*Above reward examples given on a per-mile basis
